

HELLO!

Chris & Elena

Dear  
Birth Parent

Our Story

Hi there! We are humbled that you are inviting us to be a part of your life journey and are excited to grow our family through adoption. We would like to share our life journey and how we make sure to live each day thankful with peace and love.

Music was our start. We met at work and developed a friendship through guitar lessons. We both continue to enjoy music as a hobby. Elena loves playing piano at church as a volunteer and Chris loves listening to her play.

Magic in Love

Why Adoption?

We have had hearts for adoption for a long time and began talking about adoption even while we were only dating.

Elena felt the call to adopt from her experience volunteering with foster care in college and Chris felt the urge as well based on his experience working with kids in ministry while in college.

This feeling increased exponentially when we started dating.

Our friends and family are also super excited! With a large, diverse group of at least 5 different families of very close, life-long friends, and relatives *who have adopted*, we are blessed to have a huge support system already in place for an adopted child.
