# EMILY & COLTON

---

---

## FIRST AND FOREMOST...

We would like to introduce ourselves! Our names are Colton and Emily Pinson. We're both from completely opposite sides of the country, Colton from Oregon while I'm a Florida native. We met and fell in love after meeting on the beach in Amelia Island, Florida while Colton was in the Navy. The connection we shared was palpable and we married a year later. We have spent the last three years of marriage traveling and experiencing the world with one another! We knew right away how much we longed to be parents, but

---

we also knew we wouldn't be able to fulfill that dream on our own due to my inability to carry children. Once Colton separated from the Navy, we moved up here to Tennessee and bought a home that we hope very much to fill with the sound of a happy child.

## FAITH

Christ plays a huge role in our every day lives, being Christian and raising our family with Christian values and morals is something we would take great pride in. I would strive to teach our child to love everyone as Christ did. Not only would I raise a child celebrating Christmas and Easter, but to celebrate Christ and the love he has every day.

## DAILY LIFE

Colton is a field service technician and (once we've adopted a child, of course) I will be a stay-at-home mom! After Colton gets home from work, we love having family time! This usually includes taking our Labrador Retriever to the park to run around and play!

## HOBBIES

We have a great community where we live, which has really helped accommodate our hobbies! We enjoy fishing, kayaking, going to the beach, spending the day on our boat, hiking, hanging out with friends and road trips! We hope to include our child into these hobbies in hopes that they get to experience and see things well beyond Tennessee.

---

## WHO IS COLTON?

Along with being a great husband and partner in life, Colton, being native to Oregon, enjoys hunting and fishing. Colton is extremely talented at woodworking and loves doing small crafts in his spare time. Colton served seven years in the United States Navy and separated to settle down up here in Tennessee with his family. He traveled a lot through his service and has been fortunate enough to visit many different countries and experience various cultures. Colton has known he wanted to be a dad from the moment he fell in love with Emily, and he is determined to fill that dream with her by his side.

## WHO IS EMILY?

Emily, originally from Florida, adores the beach! She loves warm weather, and her favorite days are surely when the sun is out. Like her husband, she also enjoys camping and hiking. Though still working on her degree, Emily's main two goals in life has always been to obtain her degree in English and be a mom. Emily loves writing and hopes to one day publish her own novel. She loves spending time with her friends, traveling to new places, kayaking, reading and of course hitting the beach when she's back home visiting her parents. Finding out she couldn't have kids was hard for Emily, coming from a big family made her sure of how much she wanted to be a mom. Thankfully she married a wonderful man who is as dedicated to the dream of being a parent as she is.

---

# PETS

We might not have grown our family by two legs in our three years of marriage, but we certainly have grown it in terms of four legs! We have two dogs, one three year old Yellow Labrador Retriever named Iris and a three year old Miniature Schnauzer named Steve! We also adopted a cat named Ranger who's also three!

## ACKNOWLEDGEMENT

To conclude our profile, we would both like to take a moment to express how much this opportunity would mean to us, how excited we are to fulfill a lifelong dream of ours and what a privilege it is for you to even consider giving us the honor of providing a baby the unconditional love and care we know they deserve. We are, without a doubt, ready to be parents and pray every day for a beautiful baby to bless our lives. Thank you for your time.
