

# Daniel & Alexandra

# DEAR EXPECTANT MOTHER,

We know this can be such an overwhelming and challenging time while you face this decision. Please know, we are respectful of your decision and we are rooting for you and praying for you.

We want to take this time to share more about ourselves with you. We hope it can give you some comfort and clarity on a possible future home for your child.

Adoption has been on our hearts for quite some time. Through some different circumstances, the Lord has made it clear He wants us to adopt and trust in His promises. Our faith is the base of our marriage and we will raise our child within the Christian faith as well.

Our families and friends are all very important to us and we strive to hold those relationships close whether we live near or far from them. We will be excited to add a new member to our family and please know that they will be loved and supported by so many.

We are so excited to become parents and know this child will be incredibly loved and taken care of throughout their life. Thank you for possibly considering us as future parents, we are incredibly grateful.

*With love.*

*Alexandra & Daniel*

## HOW IT ALL STARTED

We met in the typical millennial way of meeting nowadays: online through the Hinge dating app. After our first date, something seemed different than past dates; it felt like we were meant for each other. Both of us shared many of the same values and realized we did not want to let the other person go. We did not waste too much time and dated for only a year, then got engaged while fishing. Instead of saving up for a big wedding, we got married in our church two months later.

hi!  
I'M  
**ALEXANDRA**  
(MY FRIENDS & FAMILY  
CALL ME ALLIE)

I grew up in NYC and didn't officially move to the south until I was in my late 20s. I'm the youngest of five in my family.

I work as a health coach. Living a healthy and active lifestyle is very important to me. I work from home which provides a lot of flexibility in my schedule as well.

I love the Fall and try to be outside the most during that time of year. I love to spend time with my husband, snuggle with our dogs, and bake healthy treats.

I am also an avid reader and one of my favorite parts of my day is curling up in a big comfy chair with a good book! I look forward to reading with our future child and can't wait to teach them how to cook as well!

## WHAT DANIEL LOVES MOST ABOUT ALEXANDRA

There are so many things I love about Allie. She is a great joy to my life daily and I am amazed the Lord brought us together. She is funny, quick witted, loves to help others but most importantly she has a relationship with the Lord.

Her best quality is her personality. She makes me laugh all the time and loves to dance in the kitchen with the dogs (and me sometimes). Allie cares for me so much and I know she is going to be a great mother one day.

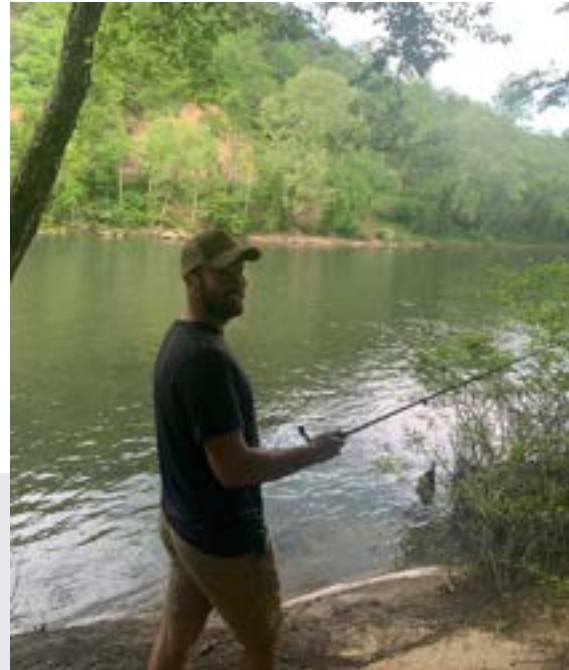

hey!  
I'M  
DANIEL

I grew up in a small town in Western Pennsylvania. I am the second born child; I have an older brother, younger brother, and a youngest sister. My sister was adopted when I was in 6th grade. Family has always been an important part of my life and I am excited to become a dad in the future and start our own family.

I was in the Air Force for 8 years and am now an engineer at a company in East Tennessee and am grateful to have a great job to support my family. I enjoy basically anything outside from hiking to mountain bike riding and fishing. I also really enjoy home projects and have helped build houses for Habitat for Humanity in the past.

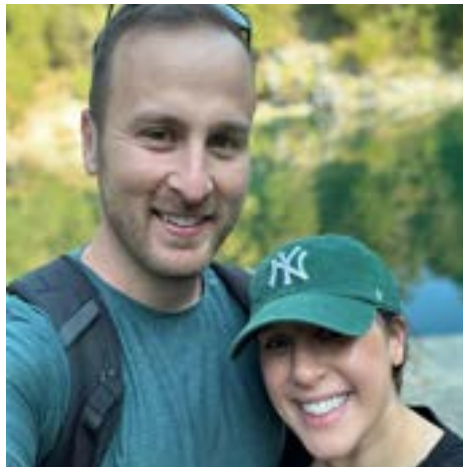

## WHAT ALEXANDRA LOVES MOST ABOUT DANIEL

Dan is my absolute best friend. To this day, I still can't believe we found each other. He is kind, funny, incredibly caring towards others, and always sees the glass half full. I love our little jokes, our dances in the kitchen, and our pizza nights. I can't wait to see him as a dad and I know he will give that child an immense amount of love.

# DOING WHAT WE LOVE

We love to be outside. Some of our favorite things to do are fishing, playing TopGolf, and going on hikes. Additionally, we love a good football game as well as a good concert! We also travel a lot to see both of our families and our road trips mainly consist of some good snacks, good laughs, and some good tunes on the radio! We have visited 15+ states and been on 2 cross country trips all within the last 3 years.

Since being married for only a few years, we do not have many traditions yet; however, we have started a few the last couple of years. During Christmas time, we will go to a local Christmas tree farm to cut down our tree, drink some hot cocoa, and spend time decorating the tree and house for the season of giving. This holiday means a lot to us because it reminds us of how God gave His Son to the world. We also enjoy

going pumpkin picking every year in the Fall.

Another tradition that is special to us is taking our very old polaroid camera with us on all of our travels and special moments. We currently have a scrapbook that contains all the polaroids we took together over the years and we can't wait to add new photos with our child.

# A FEW OF OUR TRADITIONS

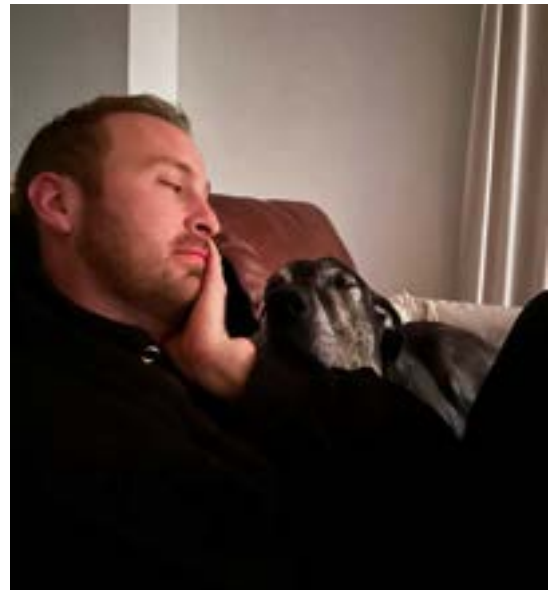

# WE LOVE OUR DOGS

(LIKE, A LOT.)

We have 2 amazing dogs. Bo is our 12 year old great dane. He is our gentle giant! He loves to be pet and thinks he is a lap dog.

Ace is our 12 year old chihuahua mix. At times, he can be in protective mode, but is always very loving and loyal.

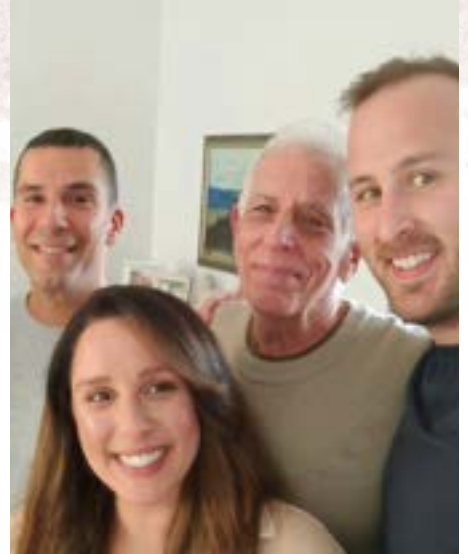

# OUR home

We currently live in East TN and love this area. We love the outdoors, so this part of TN suits us really well. One of the couples that also live on our block became important people in our lives and we are blessed to call them friends now. We live close to parks, trails, and lakes that we utilize on a regular basis.

# Alexandra's FAMILY

**I'm the youngest of five in my family.**

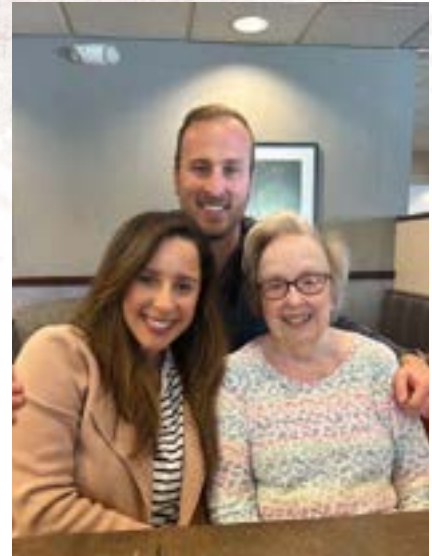

My parents still live close to one another in New York along with one of my brothers and my closest friends. We visit them every year.

I also have a brother and nephew in North Carolina and two brothers and two nephews in San Diego. Dan and I have visited them multiple times and made fun trips out of both North Carolina and the West Coast!

# Daniel's FAMILY

**I curenly have  
three siblings and  
two nieces.**

My whole family still lives in Pennsylvania, but we visit them on a regular basis. Additionally, they visit us in TN often, so for how far we live, we see each other a lot. Family has always been an important part of my life. With moving all over the world for 8 years, my family has been a solid rock I can count on and has helped guide me through the ups and downs of life.

# OUR FAITH

Our faith is the foundation of our lives. Without it, we would be lost and very lonely. Both of us had a unique story coming to the Lord and we would love to share a little of that with you. Allie went to a Catholic elementary school and high school growing up. That was her only exposure to a faith at that time. However, many years later, through some acts that can only be described from God, she started going to a Protestant church by her apartment complex at the time. It was her first time attending church in many years. After attending for a few months, she rededicated her faith, became immersed in her Bible studies, and eventually got baptized. Allie can't imagine a life without her Lord and savior, giving her strength every step she takes.

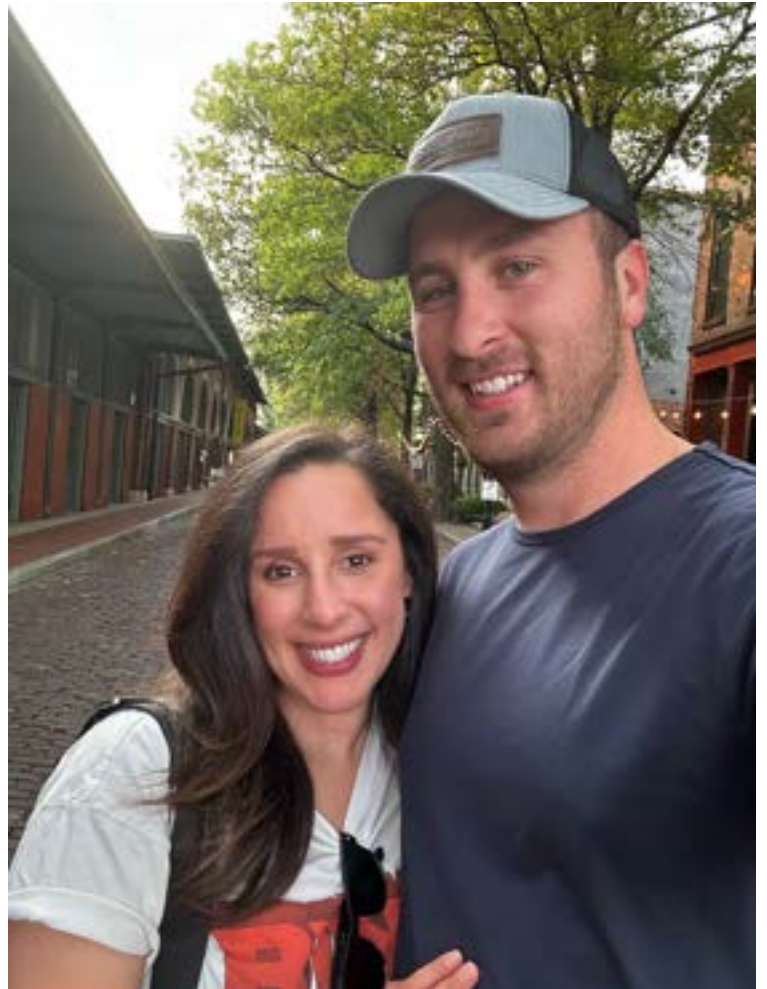

Daniel grew up in a Presbyterian church and thought he understood what it took to be a Christian. However, through many circumstances he realized he did not understand the gospel. He sought wise counsel from friends and family and also got baptized a few years ago. His faith is now stronger than ever and he understands that true peace only comes from God. Currently we go to a Protestant church near our home. We both recognize how important it is to train a child in their faith while they are young and have a good community of believers in their lives.

# WHY WE HOPE TO ADOPT

**DANIEL:** My family and I have been through the adoption process with my younger sister, so this was always on my heart from a young age. Additionally, I recognize I have been adopted into God's kingdom and I am hoping one day to adopt a child into our family.

**ALEXANDRA:** After being immersed into Dan's family and hearing more about the adoption process they went through with his sister, it opened my eyes to how truly special adoption is. Our miscarriages shook my world, but I always felt God's comfort and wise direction to choose adoption as the next step. I am so grateful and excited to be considered as a future mother to a child.

# OUR PROMISE TO YOU

**We promise** to provide a loving and safe home

**We promise** to raise this child as a child of God

**We promise** to navigate through challenges together and always provide support and empathy

**We promise** to enjoy the little things in life together: an ice cream cone on a summer's day, a stroll through the park, and family movie night.

Thank you...

...FOR GETTING TO KNOW US. WE PRAY YOU ARE SURROUNDED BY HOPE AND COMFORT DURING THIS TIME, AND WE WISH YOU ALL THE BEST - NO MATTER WHERE THIS JOURNEY LEADS YOU.
